Epitope Tag:N-terminal His-Tag

Molecular Weight:16.2kD

Applications:Suitable for use in ELISA, Western Blot, Immunoprecipitation, SDS-PAGE

Other applications not tested.

Recommended Dilution:Optimal dilutions to be determined by the researcher.

Storage and Stability:May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing and thawing. Store at -80°C. Aliquots are stable for at least 12 months from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.

Note:Thermal stability is described by the loss rate of the target protein. The loss rate was determined by accelerated thermal degradation by incubating the protein at 37°C for 48h, with no obvious degradation or precipitation observed. Protein loss is <5% within the expiration date under appropriate storage conditions.
