特徴

PD CD5 is a protein expressed in tumor cells during apoptosis independent of the apoptosis-inducing stimuli.

Prior to apoptosis induction, this protein is distributed in both the nucleus and cytoplasm.

Once apoptosis is induced, the level of this protein increases and by relocation from the cytoplasm, it accumulates in the nucleus.

Although its exact function is not defined, this protein is thought to play an early and universal role in apoptosis.

Applications: Suitable for use in Western Blot, FLISA

Recommended Dilution: FLISA: 1:1,000 Western Blot: 1:100-500

Storage and Stability: Store product at 4°C in the dark.

DO NOT FREEZE! Stable at 4°C for 12 months after receipt as an undiluted liquid.

Dilute required amount only prior to immediate use.

Further dilutions can be made in assay buffer.

Caution: APC conjugates are sensitive to light.

For maximum recovery of product, centrifuge the original vial prior to removing the cap.

Note: Applications are based on unconjugated antibody.

仕様

Size:200ul

Host:rabbit

Source Antibody:human

Grade:Affinity Purified

Purity:Purified by Protein A affinity chromatography.

Form:Supplied as a liquid in PBS, pH 7.2, 0.09% sodium azide and a stabilizer. Labeled with Allophycocyanin (APC).

Specificity:Human, mouse

Isotype:IgG

Calc Applications Abbrev:FLISA WB

Calc Crossreactivity:Hu Mo

Immunogen:PDCD5 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 5~34 amino acids from the N-terminal region of human PDCD5.

Shelf Life:6months

Swiss Prot Number:O14737

EU Commodity Code:30021010
