

NeoBiotechnologies

TTF-1 / NKX2.1 (Thyroid & Lung Epithelial Marker) 100ug

特徴

Formulation:Purified Ab with BSA and Azide at 200ug/ml

シリーズ共通仕様

|                   |                                                                                                                                                                                                                           |                        |         |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|---------|
| 別名                | BCH, Benign chorea, BHC, Homeobox protein Nkx2.1, NK2 homeobox 1, NKX2.1, NKX2A, TEBP, Thyroid nuclear factor-1, Thyroid specific enhancer binding protein, Thyroid transcription factor-1 (TTF-1), Tin man, TITF1, TTF-1 | Entrez Gene ID         | 7080    |
| Swiss -Prot       | P43699                                                                                                                                                                                                                    | Unigene                | 94367   |
| Human Gene Symbol | NKX2-1                                                                                                                                                                                                                    | Hu-chromosome location | 14q13.3 |

|                                       |       |                          |                                                                                   |
